WEDDINGS ON NIKOI

Can you put up a marquee with aircon for us or is it possible to hold the wedding on the beach?

No we cannot put up a marquee, but we do have two dining pavilions with a covered area of approximately 100sqm each. These each have 9m long dining tables made from a single piece of driftwood which each can seat 26 comfortably and additional tables can be set up. The floors in these dining pavilions are white sand and only a short distance from the beach. They are not airconditioned.

I would also like to arrange for direct shuttle boat service to and from Singapore?

The quickest way to get to Nikoi from Singapore is the route we take using the Bintan Resort Ferries. It is possible to charter a boat from Singapore but you

will need to clear customs and immigration at Batam in Indonesia. This procedure can take a number of hours.

Can you arrange the décor and flowers?

The natural design of the buildings and the surrounding landscaping means that there is little need for elaborate flower decorations. In any event cut flowers are not widely available in Bintan but our staff can arrange some simple flower arrangements with flowers and palm fronds growing on the island. If you want cut flowers we would suggest bringing them from Singapore.

Can you arrange a special menu for our reception?

Yes we can but please note that many western ingredients are not available in Bintan so if you want foie gras, oysters and exotic cheeses we will be unable to help. We can provide a wonderful variety of seafood dishes, fresh salads and local dishes.

Can you recommend a local marriage celebrant?

No, unfortunately this type of service does not exist in Bintan we would therefore suggest you find a celebrant in Singapore.
